- By pressing “Sign in with Google” button, the user will be able to log in as an Admin.

Use Case 2- Registration Screen

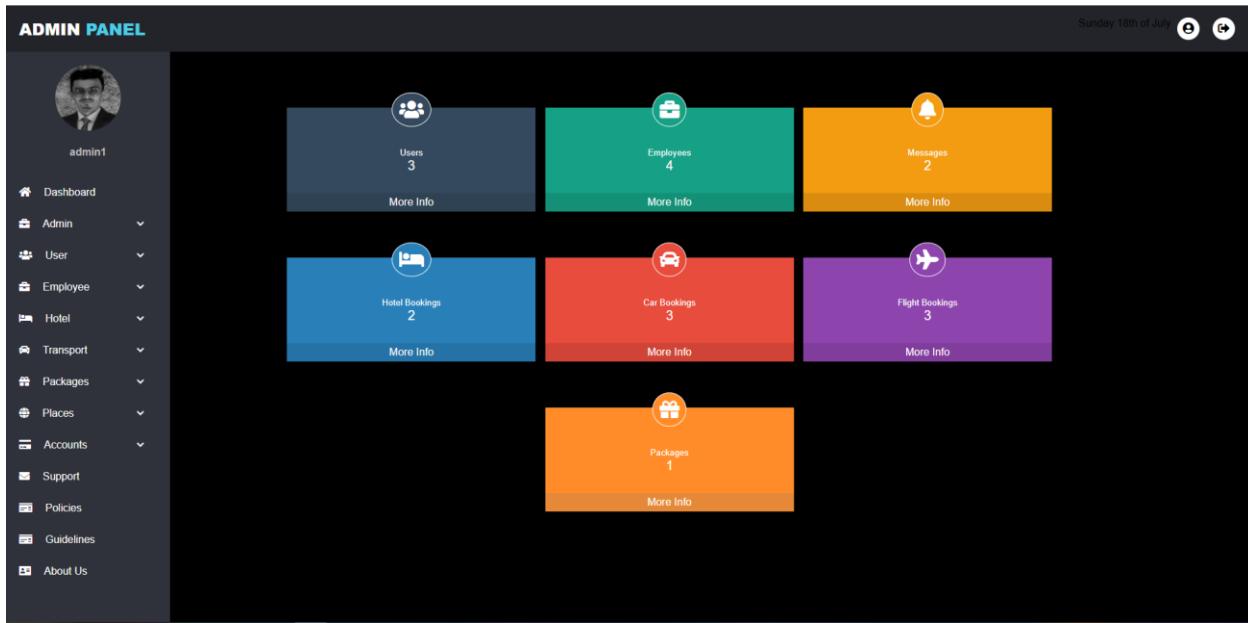

Registration screen consist of:

- User Registration
- Hotel Service
- Transport Service

Action:

- By pressing “User Registration” button, the user will be redirected to the user registration page.
- By pressing “Hotel Service” button, the user will be redirected to the hotel registration page.
- By pressing “Transport Service” button, the user will be redirected to the transport registration page.

Admin Use case 3 - An admin's first login to the system

An Admin sees following:

- Top menu with following:
 - Admin Panel logo
 - Current Date
 - Profile
 - Logout
- Side menu with following sections:
 - Admin Image
 - Admin Username
 - Dashboard
 - Admin
 - Add Admin
 - Admin List
 - User
 - User List
 - Active User List
 - Employee
 - Add Employee
 - Employee List
 - Active Employee List
 - Hotel
 - Approve/Decline
 - All Hotels

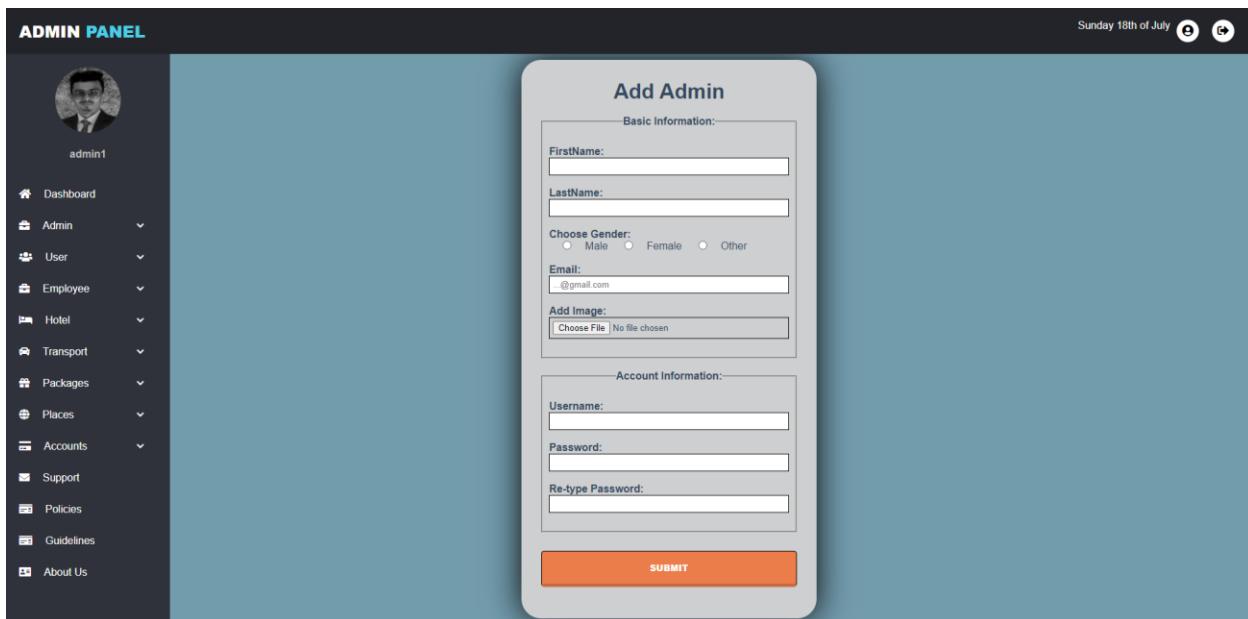

- Hotel Bookings
- Transport
 - Approve/Decline
 - All Car Companies
 - All Flight Companies
 - Car Bookings
 - Flight Bookings
- Packages
 - Approve/Decline
 - All Packages
 - Package Bookings
 - Package Status
- Places
 - Approve/Decline
 - All Places
- Accounts
 - Income Statement
 - Transaction History
 - Approve/Decline Salary
- Support
- Policies
- Guidelines
- About Us
- Card Section
 - User Count Card
 - Employee Count Card
 - Message Count Card
 - Hotel Bookings Count Card
 - Car Bookings Count Card
 - Flight Bookings Count Card
 - Packages Count Card

Actions:

- By pressing “Profile”, Admin will see Profile page
- By pressing “Log out”, Admin will be logged out and redirected to login page
- By pressing “Dashboard”, Admin stays at the same page
- By pressing “Add Admin”, Admin will see Add Admin page
- By pressing “Admin List”, Admin will see Admin List page
- By pressing “User List”, Admin will see User List page
- By pressing “Active User List”, Admin will see Active User List page
- By pressing “Add Employee”, Admin will see Add Employee page
- By pressing “Employee List”, Admin will see Employee List page
- By pressing “Active Employee List”, Admin will see Active Employee List page
- By pressing “Approve/Decline” inside Hotel, Admin will see Pending Hotel Account page
- By pressing “All Hotels”, Admin will see Hotel List page

- By pressing “Hotel Bookings”, Admin will see Hotel Booking List page
- By pressing “Approve/Decline” inside Transport, Admin will see Pending Transport List page
- By pressing “All Car Companies”, Admin will see All Car Companies page
- By pressing “All Flight Companies”, Admin will see All Flight Companies page
- By pressing “Car Bookings”, Admin will see Car Booking page
- By pressing “Flight Bookings”, Admin will see Flight Booking page
- By pressing “Approve/Decline” inside Packages, Admin will see Pending Packages page
- By pressing “All Packages”, Admin will see Package List page
- By pressing “Package Bookings”, Admin will see Package Booking page
- By pressing “Package Status”, Admin will see Package Status Update page
- By pressing “Approve/Decline” inside Place, Admin will see Pending Places page
- By pressing “All Place”, Admin will see Place List page
- By pressing “Income Statement”, Admin will see Income Statement page
- By pressing “Transaction”, Admin will see Transaction History page
- By pressing “All Place”, Admin will see Place List page
- By pressing “Approve/Decline Salary” inside Accounts, Admin will see Pending Salary and Festival Bonus page
- By pressing “Support”, Admin will see Support page
- By pressing “Policies”, Admin will see Policies page
- By pressing “Guidelines”, Admin will see Guidelines page
- By pressing “About Us”, Admin will see About Us page

Admin Use case 4 – Add Admin screen

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the username "admin1". Below the profile are navigation links for Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area has a title "Add Admin" and two sections: "Basic Information:" and "Account Information:". The "Basic Information:" section contains fields for FirstName, LastName, Choose Gender (with radio buttons for Male, Female, Other), and Email (with a placeholder "@gmail.com"). It also includes an "Add Image:" field with a "Choose File" button. The "Account Information:" section contains fields for Username, Password, and Re-type Password. At the bottom is an orange "SUBMIT" button.

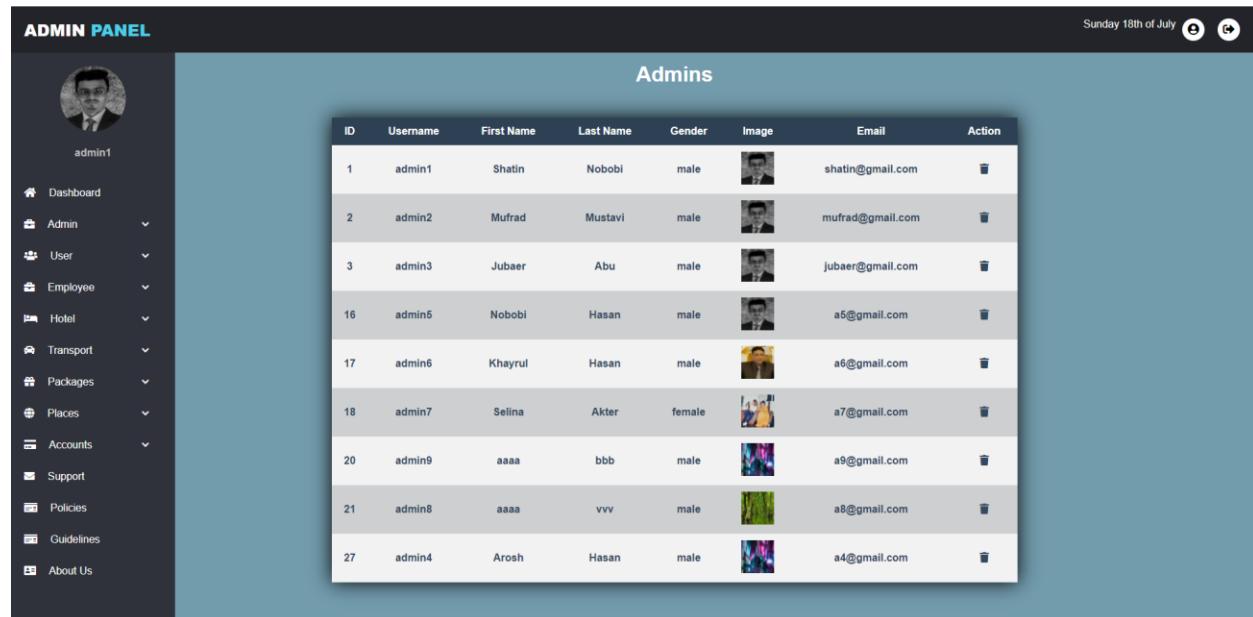

Add Admin screen consist of:

- Add Admin section:
 - FirstName
 - LastName
 - Choose Gender
 - Email
 - Add Image
 - Username
 - Password
 - Re-type Password
 - Submit button

Action:

Admin should fill out all fields to save new admin, if one of the fields are not added and press submit, error message will show to fill corresponding data. If email or username is already existed, error message will be shown. If each field is added, a new admin will be added to the database.

Admin Use case 5 – Admin List screen

ID	Username	First Name	Last Name	Gender	Image	Email	Action
1	admin1	Shatin	Nobobi	male		shatin@gmail.com	
2	admin2	Mufrad	Mustavi	male		mufrad@gmail.com	
3	admin3	Jubaer	Abu	male		jubaer@gmail.com	
16	admin6	Nobobi	Hasan	male		a5@gmail.com	
17	admin6	Khayrul	Hasan	male		a6@gmail.com	
18	admin7	Selina	Akter	female		a7@gmail.com	
20	admin9	aaaa	bbb	male		a9@gmail.com	
21	admin8	aaaa	vvv	male		a8@gmail.com	
27	admin4	Arosh	Hasan	male		a4@gmail.com	

Admin List screen consist of:

A table consists of:

- Id
- Username
- First Name
- Last Name

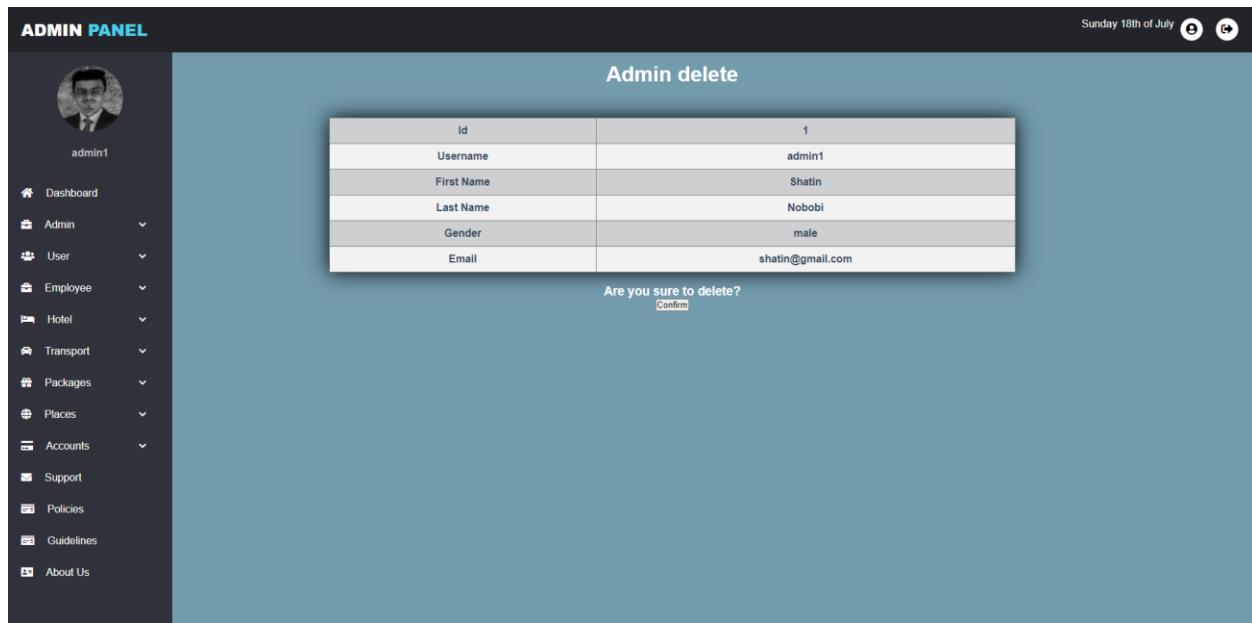

- Gender
- Image
- Email
- Action

This table will show all the admin's information. There will be a delete admin option in each row in action column.

Action:

When Admin clicks on Delete option in any particular row, a confirmation page will appear with a confirm button.

Example:

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the name "admin1". Below the profile are ten menu items: Dashboard, Admin (selected), User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area has a title "Admin delete" and displays a table with the following data:

Id	1
Username	admin1
First Name	Shatin
Last Name	Nobobi
Gender	male
Email	shatin@gmail.com

Below the table is a message "Are you sure to delete?" followed by a "Confirm" button.

If confirm button is pressed, that particular admin account will be deleted.

Admin Use case 6 – Add Employee screen

The screenshot shows the 'ADMIN PANEL' interface. On the left is a sidebar with a user profile picture and the name 'admin1'. Below the profile are ten menu items: Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, and Guidelines. At the bottom of the sidebar is an 'About Us' link. The main area is titled 'Add Employee' and contains two sections: 'Basic Information' and 'Account Information'. Example:

The screenshot shows the Admin Panel interface. The sidebar and menu structure are identical to the previous screenshot. The main content area is titled "Employee delete" and displays a table with the following data:

Id	1
Username	emp1
First Name	abu
Last Name	jub
Gender	male
Email	e1@gmail.com
Status	Active

Below the table, there is a message "Are you sure?" followed by a "Confirm" button.

If confirm button is pressed, that particular employee account will be deleted.

Admin Use case 8 – Active Employee List screen

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the name "admin1". Below the profile are several menu items: Dashboard, Admin (with a dropdown arrow), User (with a dropdown arrow), Employee (with a dropdown arrow), Hotel (with a dropdown arrow), Transport (with a dropdown arrow), Packages (with a dropdown arrow), Places (with a dropdown arrow), Accounts (with a dropdown arrow), Support, Policies, Guidelines, and About Us. At the top right, there is a timestamp "Sunday 18th of July" and two small circular icons. The main content area is titled "Active Employees" and contains a table with the following data:

ID	Username	First Name	Last Name	Gender	Email	Status
1	emp1	abu	jub	male	e1@gmail.com	Active
2	emp2	mufrad	mustavi	male	e2@gmail.com	Active
3	emp3	Nobobi	Hasan	male	e3@gmail.com	Active
5	emp5	Arosh	Hasan	male	e5@gmail.com	Active

Active Employee List screen consist of:

A table consists of:

- Id
- Username
- First Name
- Last Name
- Gender
- Email
- Status

This table will show only all the Active employee's account information.

Admin Use case 9 – User List screen

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the name "admin1". Below the profile are several menu items: Dashboard, Admin (selected), User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, and Guidelines. At the bottom of the sidebar are About Us and Log Out links. The main content area has a header "Users". Below the header is a table with the following data:

ID	Username	First Name	Last Name	Gender	Email	Status	Action	
1	user1	Nobobi	Shatin	male	u1@gmail.com	Active		
2	user2	Mufrad	Mustavi	male	mufrad@gmail.com	Active		
3	user3	a	a	male	a@gmail.com	Active		
4	user4	saf	sdfsaf	male	u2@gmail.com	Deactive		

User List screen consist of:

A table consists of:

- Id
- Username
- First Name
- Last Name
- Gender
- Email
- Status
- Action

This table will show all the user's information. There will be a see details and a delete user option in each row in action column.

Action:

By pressing details option, Admin will see that particular row's user's details in another page.
Example:

ADMIN PANEL

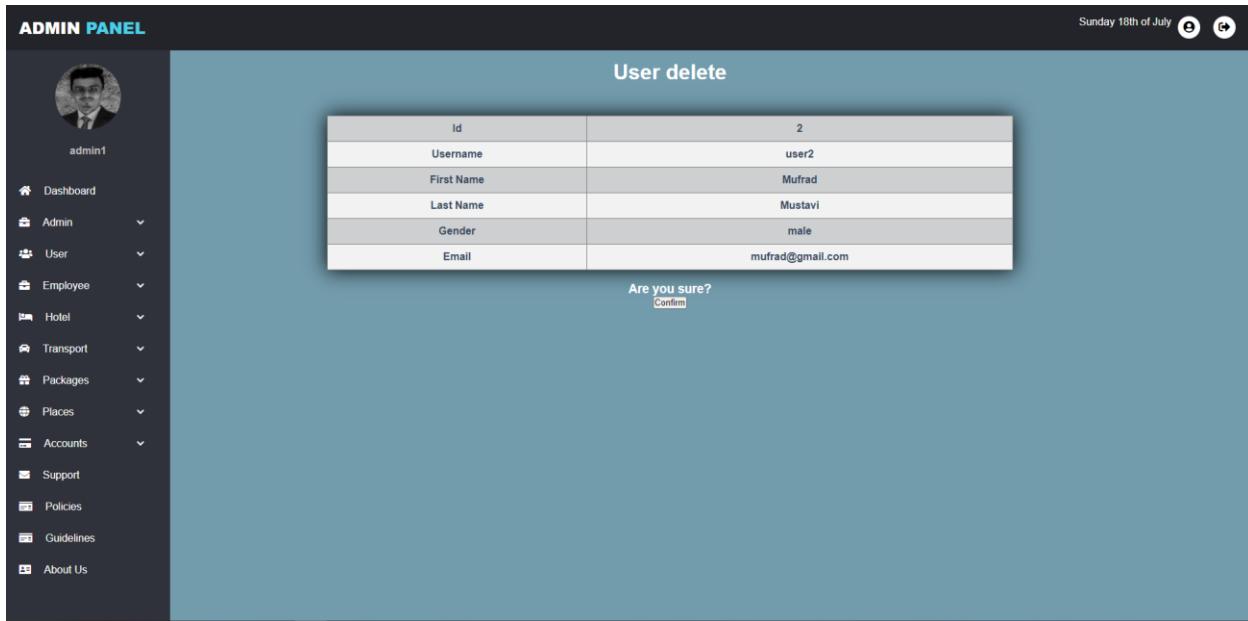

The screenshot shows the 'User Detail' view in the Admin Panel. On the left is a sidebar with a user profile picture and the name 'admin1'. Below it is a navigation menu with items like Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area is titled 'User Detail' and contains a table with the following data:

Id	2
Username	user2
First Name	Mufrad
Last Name	Mustavi
Gender	male
Email	mufrad@gmail.com

Sunday 18th of July

When Admin clicks on Delete option in any particular row, a confirmation page will appear with a confirm button.

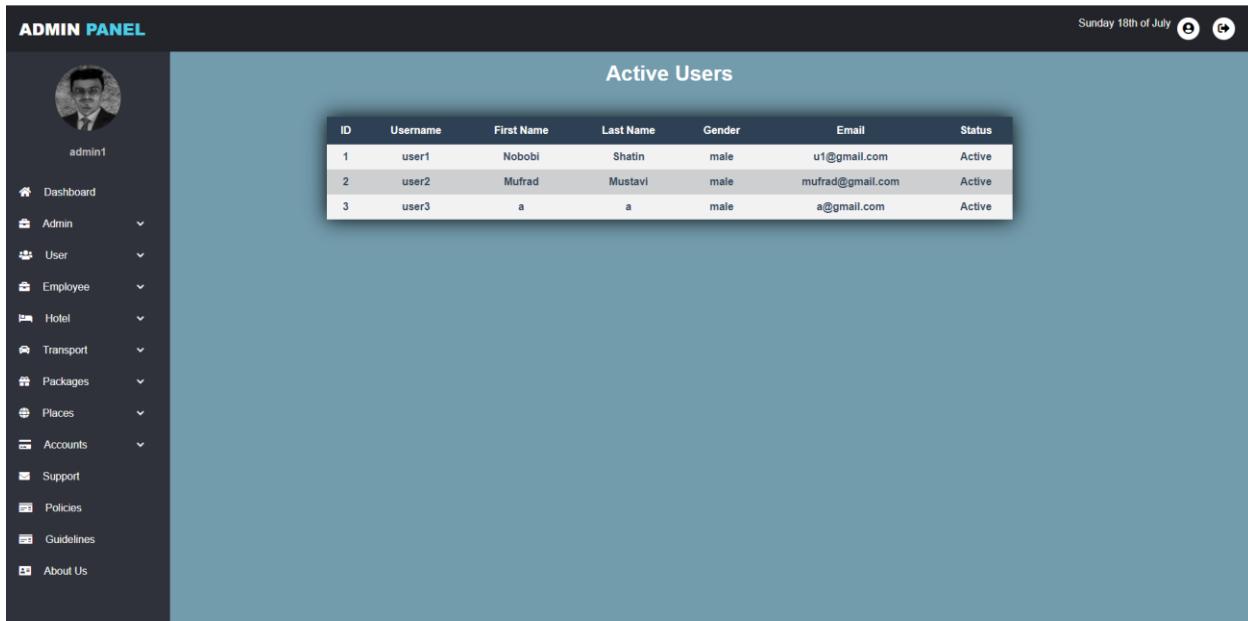

Example:

The screenshot shows a confirmation dialog titled 'User delete' over the 'User Detail' view. The table data remains the same as in the previous screenshot. A message 'Are you sure?' is displayed above a blue 'Confirm' button.

If confirm button is pressed, that particular user account will be deleted.

Admin Use case 10 – Active User List screen

The screenshot shows the Admin Panel interface. On the left, there's a sidebar with a user profile picture and the name "admin1". Below the profile are ten menu items: Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The "Admin" item is currently selected and has a dropdown arrow. The main content area is titled "Active Users" and contains a table with the following data:

ID	Username	First Name	Last Name	Gender	Email	Status
1	user1	Nobobi	Shatin	male	u1@gmail.com	Active
2	user2	Mufrad	Mustavi	male	mufrad@gmail.com	Active
3	user3	a	a	male	a@gmail.com	Active

Active User List screen consist of:

A table consists of:

- Id
- Username
- First Name
- Last Name
- Gender
- Email
- Status

This table will show only all the Active user's account information.

Admin Use case 11 – Pending Hotel Accounts screen

The screenshot shows the 'Pending Hotel Accounts' screen within the 'ADMIN PANEL'. On the left, there is a sidebar with a user profile picture and the name 'admin1'. Below the profile are ten menu items: Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. At the top right, there is a date 'Sunday 18th of July' and two small circular icons. The main content area has a title 'Pending Hotel Accounts' and a table with the following data:

ID	Name	Location	Address	Image	Contact No.	Email	Action
11	Hotel Noorjahan Grand	Sylhet	Address: Waves 1, Ritz Tower, Dargah Gate, Sylhet, Bangladesh		1521408973	h5@gmail.com	

Pending Hotel Accounts screen consist of:

A table consists of:

- Id
- Name
- Location
- Address
- Image
- Contact No.
- Email
- Action

This table will show all the pending hotel account's information. There will be an approve and a decline option in each row in action column.

Action:

When Admin clicks on approve option in any particular row, a confirmation page will appear with a confirm button.

Example:

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the name "admin1". Below the profile are various menu items: Dashboard, Admin (selected), User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area has a title "Approve Hotel Account". Below the title is a table with the following data:

Id	11
Name	Hotel Noorjahan Grand
Location	Sylhet
Address	Address: Waves 1, Ritz Tower, Dargah Gate, Sylhet, Bangladesh
Contact No.	1521408973
Email	h6@gmail.com

Below the table is a message "Are you sure to approve?" followed by a "Confirm" button.

If confirm button is pressed, that particular hotel account will be accepted.

When Admin clicks on decline option in any particular row, a confirmation page will appear with a confirm button.

Example:

The screenshot shows the Admin Panel interface, identical to the previous one but with a different title. The main content area has a title "Decline Hotel Account". Below the title is a table with the same data as the previous screenshot:

Id	11
Name	Hotel Noorjahan Grand
Location	Sylhet
Address	Address: Waves 1, Ritz Tower, Dargah Gate, Sylhet, Bangladesh
Contact No.	1521408973
Email	h6@gmail.com

Below the table is a message "Are you sure to decline?" followed by a "Confirm" button.

If confirm button is pressed, that particular hotel account will be declined.

Admin Use case 12 – Hotel List screen

The screenshot shows the Admin Panel interface. On the left is a sidebar with a user profile picture and the name 'admin1'. The sidebar contains a navigation menu with the following items: Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area is titled 'Hotels' and displays a table with four rows of hotel information. The columns are labeled: ID, Name, Location, Address, Image, Contact No., Email, and Action. The data in the table is as follows:

ID	Name	Location	Address	Image	Contact No.	Email	Action

Below the profile are several menu items: Dashboard, Admin, User, Employee, Hotel, Transport, Packages, Places, Accounts, Support, Policies, Guidelines, and About Us. The main content area has a title 'Travel Guidelines' above a collage of travel-related icons (airplane, map, shoes, camera, etc.). Below the collage, there are several sections of text providing travel guidelines:

- Safety and security**
Political violence
Bangladesh has a long history of political violence. If you're currently in Bangladesh, or intend to travel there, even if you're a regular visitor with family or business links you should monitor the media and regularly consult travel advice. English language news broadcasts can be seen on BTV at 10am, 5pm and 10pm. There are also several online English language newspapers and agencies.
- If in Bangladesh protests and demonstrations can quickly turn violent and lead to clashes with law enforcement agencies. In cases of political unrest, incidents of arson, violence and vandalism can suddenly break out across the country, mainly in towns and cities.
- Crime**
Dhaka police have highlighted the increasing number of criminal gangs operating in the city and reminded people to be aware of potential threats including robbery and violent crime.
- Armed robbery, pick pocketing, and purse snatching can occur. Don't carry large amounts of money with you or wear jewellery in the street. Thieves often work in pairs on motorcycles or motorised rickshaws known as 'CNGs'. Passengers using rickshaws, or travelling alone in taxis are particularly vulnerable, especially at night. Avoid using public transport if you're on your own. Cycle rickshaws aren't safe; they offer little protection for passengers in the event of a crash.
- There have been reports of officials abusing their authority. Make sure you're accompanied if you visit a police station.
- There have been reports of theft and harassment at Dhaka and Sylhet airports. Beware of touts offering to carry your bags. Arrange transfers in advance. Taxis, including those serving the airport, often overcharge and drivers have been known to rob passengers. Passport theft at Dhaka and Sylhet airports is a particular concern. Be vigilant and make sure your documents and any valuables are kept secure at all times.
- Abductions**

Supports screen consist of:

- An Image
- Written travel guidelines
- An Edit option

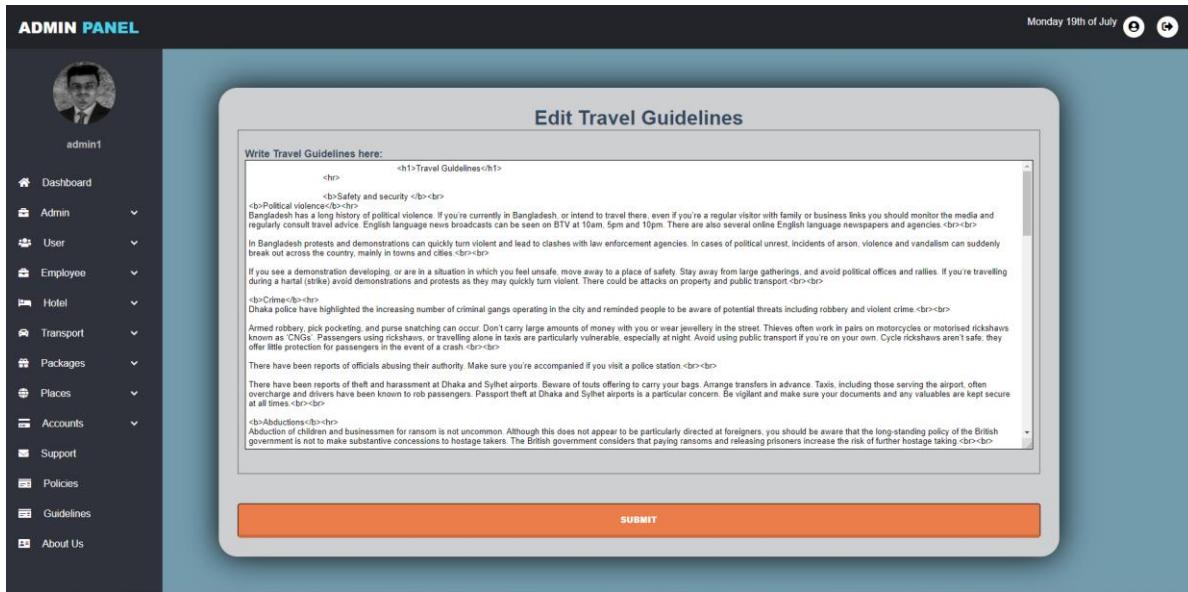

Action:

When Admin clicks on Edit option, edit travel guidelines form will appear.

Admin Use case 32 – Edit Travel Guidelines screen

ADMIN PANEL

Monday 19th of July  

The screenshot shows the 'Edit Travel Guidelines' screen. The left sidebar contains a user profile picture and the name 'admin1'. The main content area has a title 'Edit Travel Guidelines' and a text area with the following content:

Write Travel Guidelines here:

<h1>Travel Guidelines</h1>

Safety and security

Political violence
Bangladesh has a long history of political violence. If you're currently in Bangladesh, or intend to travel there, even if you're a regular visitor with family or business links you should monitor the media and regularly consult travel advice. English language news broadcasts can be seen on BTV at 10am, 5pm and 10pm. There are also several online English language newspapers and agencies.

In Bangladesh protests and demonstrations can quickly turn violent and lead to clashes with law enforcement agencies. In cases of political unrest, incidents of arson, violence and vandalism can suddenly break out across the country, mainly in towns and cities.

If you see a demonstration developing, or are in a situation in which you feel unsafe, move away to a place of safety. Stay away from large gatherings, and avoid political offices and rallies. If you're travelling during a hartal (strike) avoid demonstrations and protests as they may quickly turn violent. There could be attacks on property and public transport.

Crime
Dhaka police have highlighted the increasing number of criminal gangs operating in the city and reminded people to be aware of potential threats including robbery and violent crime.

Armed robbery, pick pocketing, and purse snatching can occur. Don't carry large amounts of money with you or wear jewellery in the street. Thieves often work in pairs on motorcycles or motorised rickshaws known as 'CNGs'. Passengers using rickshaws, or travelling alone in taxis are particularly vulnerable, especially at night. Avoid using public transport if you're on your own. Cycle rickshaws aren't safe; they offer little protection for passengers in the event of a crash.

There have been reports of officials abusing their authority. Make sure you're accompanied if you visit a police station.

There have been reports of theft and harassment at Dhaka and Sylhet airports. Beware of touts offering to carry your bags. Arrange transfers in advance. Taxis, including those serving the airport, often overcharge and drivers have been known to rob passengers. Passport theft at Dhaka and Sylhet airports is a particular concern. Be vigilant and make sure your documents and any valuables are kept secure at all times.

Kidnapping
Abduction of children and businessmen for ransom is not uncommon. Although this does not appear to be particularly directed at foreigners, you should be aware that the long-standing policy of the British government is not to make substantive concessions to hostage takers. The British government considers that paying ransoms and releasing prisoners increase the risk of further hostage taking.

SUBMIT

Edit Travel Guidelines screen consist of:

A form to edit Travel Guidelines with a submit button.

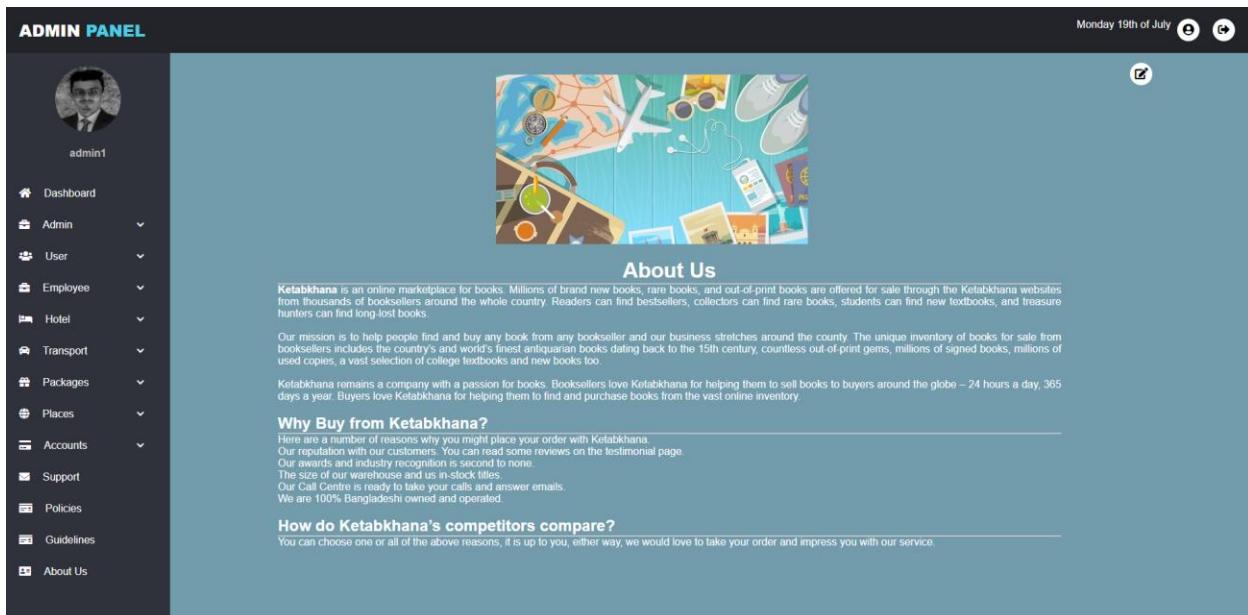

Action:

Admin should fill out the field to save new / edited Travel Guidelines, if the field is not added and press submit, error message will show to fill corresponding data. If the field is not empty, Travel Guidelines will be updated to the database.

Admin Use case 33 – About Us screen

ADMIN PANEL

Monday 19th of July  

About Us

Katabkhana is an online marketplace for books. Millions of brand new books, rare books, and out-of-print books are offered for sale through the Katabkhana website from thousands of booksellers around the whole country. Readers can find bestsellers, collectors can find rare books, students can find new textbooks, and treasure hunters can find long-lost books.

Our mission is to help people find and buy any book from any bookseller and our business stretches around the country. The unique inventory of books for sale from booksellers includes the country's and world's finest antiquarian books dating back to the 15th century, countless out-of-print gems, millions of signed books, millions of used copies, a vast selection of college textbooks and new books too.

Katabkhana remains a company with a passion for books. Booksellers love Katabkhana for helping them to sell books to buyers around the globe – 24 hours a day, 365 days a year. Buyers love Katabkhana for helping them to find and purchase books from the vast online inventory.

Why Buy from Katabkhana?

Here are a number of reasons why you might place your order with Katabkhana.

Our reputation with our customers. You can read some reviews on the testimonial page.

Our awards and industry recognition is second to none.

The widest selection of books.

Our Call Centre is ready to take your calls and answer emails.

We are 100% Bangladeshi owned and operated.

How do Katabkhana's competitors compare?

You can choose one or all of the above reasons, it is up to you, either way, we would love to take your order and impress you with our service.

Supports screen consist of:

Example:

FLIGHT ADMIN PANEL

The screenshot shows the Flight Admin Panel interface. On the left is a sidebar with a user profile icon and a navigation menu. The main area is titled "User-Air Booking Information" and contains two tables: "User Information" and "Air Information".

User Information

ID : 1
Name: Nobobi Shatin
Username : user1
Gender : male
Email : u1@gmail.com
Phone Number : 1521408973

Air Information

ID : 4
Title : Emirates Airlines
Model : Emirates A350
Type : airbus
Fare : 500000

Use Case 76- Pending Booking

FLIGHT ADMIN PANEL

The screenshot shows the Flight Admin Panel interface. On the left is a sidebar with a user profile icon and a navigation menu. The main area is titled "Pending Booking" and displays a table of pending bookings.

Pending Booking

Id	User Id	Air Id	Departure Location	Arrival Location	Departure Date	Arrival Date	Action	
2	2	5	Khulna	Barisal	2021-06-29	2021-06-29		
3	3	4	Chittagong	Rajshahi	2021-06-26	2021-06-26		

Pending Booking List consist of:

- Pending Booking List section:
 - Id
 - User Id
 - Air Id
 - Arrive Location
 - Departure Location
 - Departure Date
 - Arrival Date
 - Action

This table will show all the pending-booking information. There will be an approve and delete booking option in each row in action column.

Action:

When Flight-Service Provider clicks on approve option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular flight id will be added in the main booking list. Click delete option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular booking id will be deleted from the list.

Use Case 77- Airplane Availability

The screenshot shows the 'FLIGHT ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and links: Home, New AirPlane, Flight Type, Booking, Availability (which is checked), Check Review, Transaction History, and Support. The main area has a dark header 'Airplane Availability'. Below it are two dropdown menus: 'Select Airplane' set to 'Emirates Airlines' and 'Availability' set to 'Available'. At the bottom is a large blue 'SUBMIT' button.

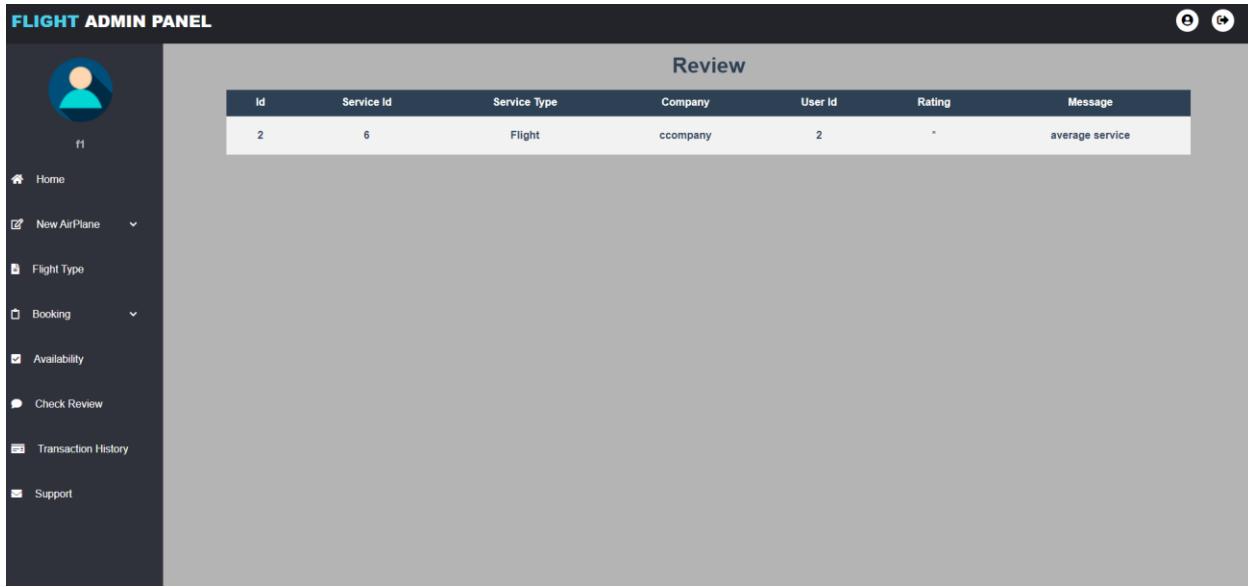

Airplane Availability consist of:

- Airplane Type section:
 - Select Airplane
 - Availability
- Submit Button

Action:

Flight-Service Provider should fill out all mandatory fields to submit Airplane Availability. If one of the fileds are not added, submit button would not be active. After pressing submit button it will redirect to this page again to submit another airplane availability.

Use Case 78- Check Review

The screenshot shows the 'FLIGHT ADMIN PANEL' interface. On the left, there is a sidebar with a user profile icon and a list of navigation items: Home, New AirPlane, Flight Type, Booking, Availability (which is checked), Check Review (highlighted with a blue background), Transaction History, and Support. The main content area is titled 'Review' and contains a table with the following data:

Id	Service Id	Service Type	Company	User Id	Rating	Message
2	6	Flight	ccompany	2	*	average service

Check Review consist of:

- Check Review section:
 - Id
 - Service Id
 - Service Type
 - Company Name
 - User Id
 - Rating
 - Message

This table will show all the review information of a particular flight id and also show the flight review message which comes from the users.

Use Case 79- Transactions Report

The screenshot shows the 'FLIGHT ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and a list of menu items: Home, New AirPlane, Flight Type, Booking, Availability, Check Review, Transaction History (which is selected and highlighted in blue), and Support. The main content area is titled 'Transaction History' and displays a table with one row of data. The table has columns: ID, Date, Receiver Id, Receiver, Username, Description, and Amount. The data in the table is as follows:

ID	Date	Receiver Id	Receiver	Username	Description	Amount
5	2021-07-02 09:09:21	6	Flight	user1	Flight Book	70000

At the top right of the main content area are three small circular icons: a magnifying glass, a refresh symbol, and a download symbol.

Transaction Report consist of:

- Transaction Report section:
 - Id
 - Date
 - Receiver Id
 - Receiver
 - Username
 - Description
 - Amount
- Download Button

This table will show all the transaction report history of a particular flight and there will a download button to download the report.

Action:

Flight-Service Provider clicks on the download button to download the transaction report. After pressing the download button, a pdf format file will download. In the pdf file, there have all the information of transaction history of that particular flight.

Use Case 80- Support

The screenshot shows the 'FLIGHT ADMIN PANEL' interface. On the left is a sidebar with a user icon and navigation links: Home, New AirPlane, Flight Type, Booking, Availability (selected), Check Review, Transaction History, and Support. The main area is titled 'Support' and contains four input fields: 'Company Name', 'Phone Number', 'Email', and 'Message'. A blue 'SUBMIT' button is at the bottom.

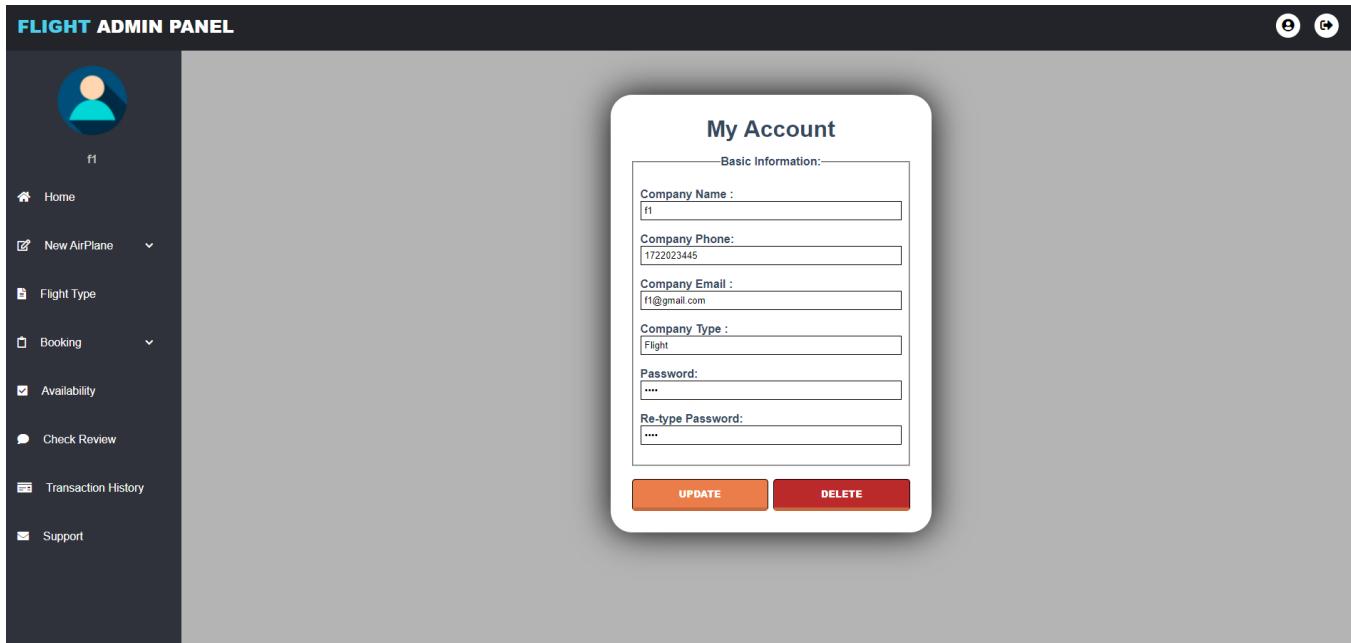

Support consists of:

- Support section:
 - Company Name
 - Phone Number
 - Email
 - Message
- Submit Button

Action:

Flight-Service Provider should fill out all mandatory fields to submit a support forum. If one of the fields are not added, submit button would not be active. After pressing submit button it will redirect to this page again to add another support forum.

Use Case 81- Profile

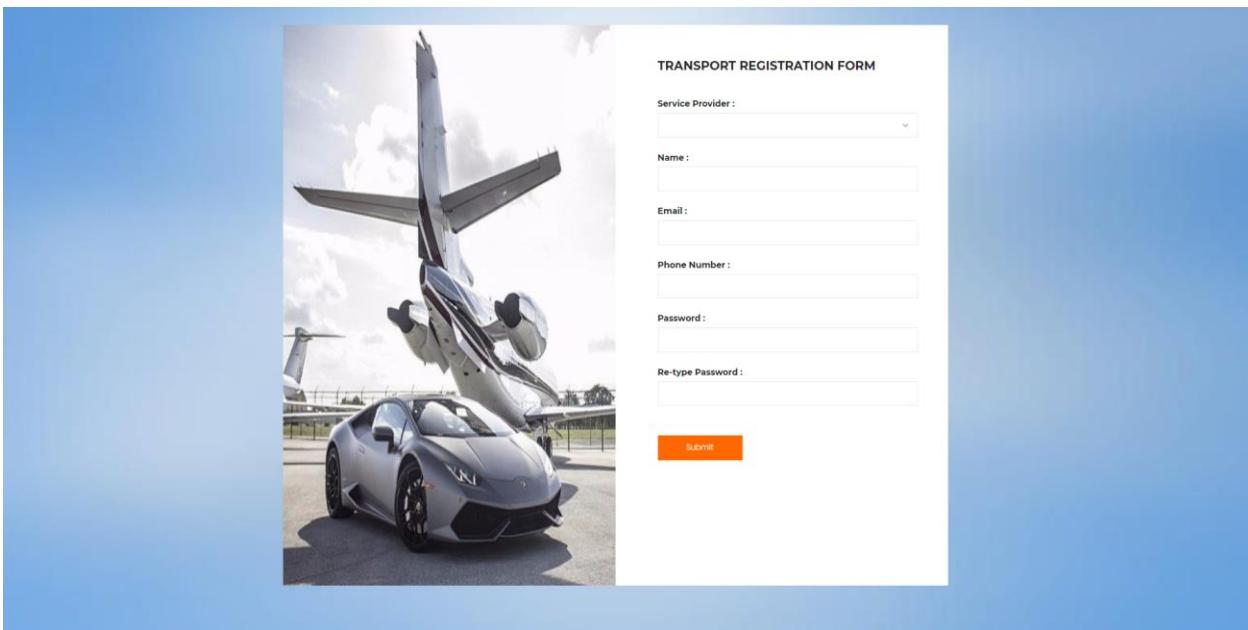

Profile consists of:

- Profile section:
 - Company Name
 - Company Phone
 - Company Email
 - Company Type
 - Password
 - Re-type Password
- Update Button
- Delete Button

Action:

Flight-Service Provider clicks on edit option, they can edit the information of their profile and click delete option will be delete the profile permanently. When updating the information all the information should fill out. If one of the filesd are not added, update button would not be work.

Use Case 82- Registration in the project for Transports

TRANSPORT REGISTRATION FORM

Service Provider :

Name :

Email :

Phone Number :

Password :

Re-type Password :

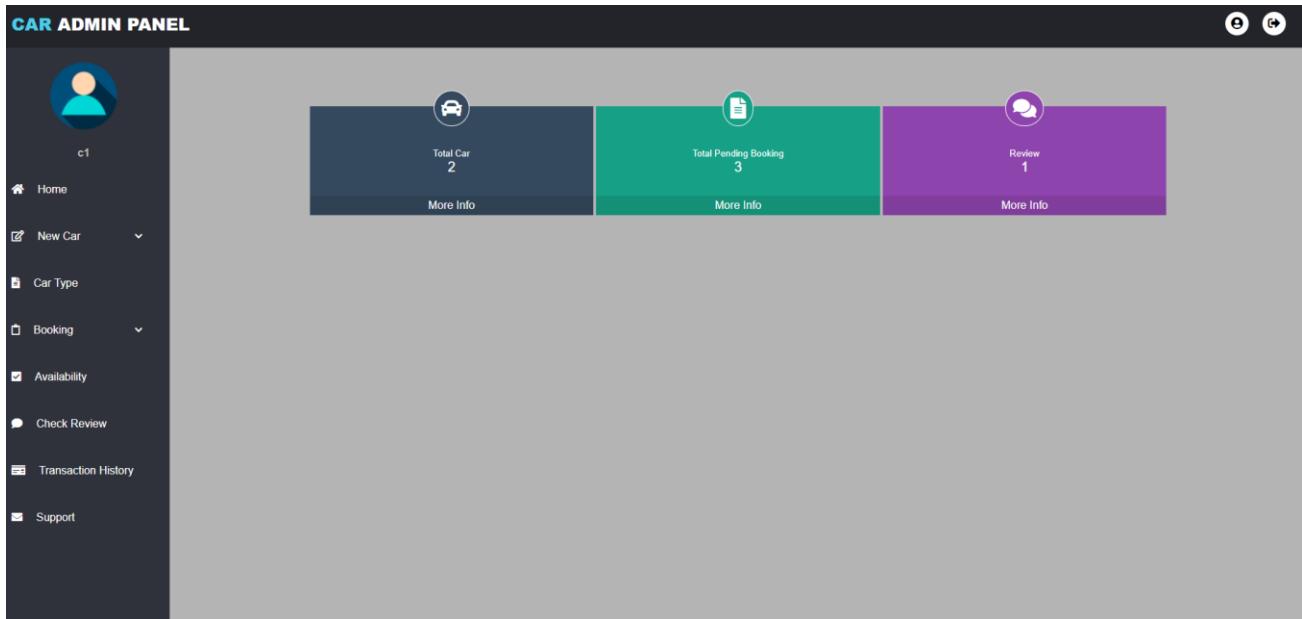

All transport-service provider accounts are registered by the service provider, for car or flight registration necessary fields are:

- Service Provider
- Name
- Phone Number
- Email
- Password
- Re-Type Password

Action:

Transport service should fill out all mandatory fields to add new transport like car or flight. If one of the fileds are not added, submit button would not be active. After pressing submit button it will redirect to this page again to add another transport service.

Use Case 83- Car Service Provider login to the system

When Car-Service Provider login to the system for the first time, Car-Service Provider sees following :

- Car Account Logo
- Top menu the following:
 - Profile
 - Logout
- Side menu with following sections:
 - Home
 - New Car
 - Add Car

Manage Car consist of:

- Car section:
 - Serial No.
 - Car Title
 - Car Model
 - Driver Name
 - Type of Car
 - Per Day Fare
 - Availability
 - Image
 - Action

This table will show the all-car information. There will be an edit and delete car option in each row in action column

Action:

When Car-Service Provider clicks on edit option in any particular row, an edit page will show and there can edit the information of the car and click delete option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular car will be deleted.

Use Case 86- Car Type

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and a list of navigation options: Home, New Car (selected), Car Type (selected), Booking, Availability, Check Review, Transaction History, and Support. The main content area is titled 'Car Type'. It contains three dropdown menus: 'Select Car' (BMW X6), 'Select Type' (Luxury), and 'Per Day Fare' (an empty input field). A large blue 'SUBMIT' button is at the bottom.

Car Type consist of:

- Car Type section:
 - Select Car
 - Select Type
 - Per Day Fare
- Submit Button

Action:

Car-Service Provider should fill out all mandatory fields to submit Car type. If one of the fileds are not added, submit button would not be active. After pressing submit button it will redirect to this page again to submit another car type.

Use Case 87- Booking List

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left, there is a sidebar with a user profile icon and a list of navigation options: Home, New Car, Car Type, Booking (selected), Availability, Check Review, Transaction History, and Support. The main area is titled 'Booking List' and contains a table with the following data:

Id	User Id	Car Id	Departure Location	Arrival Location	Departure Date	Arrival Date	Action
1	1	4	Dhaka	Chittagong	2021-06-29	2021-06-29	

Booking List consist of:

- Booking List section:
 - Id
 - User Id
 - Car Id
 - Departure Location
 - Arrival Location
 - Departure Date
 - Arrival Date

This table will show the all-booking information. There will be an information and delete car option in each row in action column.

Action:

When Car-Service Provider clicks on information option in any particular row, an information page will show and there will show car and user information and click delete option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular booking id will be deleted from the list.

Example:

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and navigation links: Home, New Car, Car Type, Booking, Availability, Check Review, Transaction History, and Support. The main content area is titled 'User-Car Booking Information' and contains two tables: 'User Information' and 'Car Information'. The 'User Information' table includes fields: ID : 1, Name: Nobobi Shatin, Username : user1, Gender : male, Email : u1@gmail.com, and Phone Number : 1521408973. The 'Car Information' table includes fields: ID : 4, Title : BMW X6, Model : BMW White X6, Driver : Driver1, Type : Luxury, and Fare : 15000.

User Information				Car Information			
ID : 1	Name: Nobobi Shatin	Username : user1	Gender : male	Email : u1@gmail.com	Phone Number : 1521408973	ID : 4	Title : BMW X6
						Model : BMW White X6	Driver : Driver1
						Type : Luxury	Fare : 15000

Use Case 88- Pending Booking

The screenshot shows the 'CAR ADMIN PANEL' interface. The sidebar is identical to the previous one. The main content area is titled 'Pending Booking' and displays a table with columns: Id, User Id, Car Id, Departure Location, Arrival Location, Departure Date, Arrival Date, and Action. There are two entries in the table:

Pending Booking								
Id	User Id	Car Id	Departure Location	Arrival Location	Departure Date	Arrival Date	Action

3	3	5	Bogura	Dhaka	2021-07-01	2021-07-02		

Pending Booking List consist of:

- Pending Booking List section:
 - Id
 - User Id
 - Car Id
 - Arrive Location

- Departure Location
- Departure Date
- Arrival Date
- Action

This table will show all the pending-booking information. There will be an approve and delete booking option in each row in action column.

Action:

When Car-Service Provider clicks on approve option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular car id will be added in the main booking list. Click delete option in any particular row, a confirmation page will appear with a confirm button. If confirm button is pressed, that particular booking id will be deleted from the list.

Use Case 89- Car Availability

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user icon and several menu items: Home, New Car, Car Type (selected), Booking, Availability (selected), Check Review, Transaction History, and Support. The main content area is titled 'Car Availability'. It contains two dropdown menus: 'Select Car' set to 'BMW X6' and 'Availability' set to 'Available'. Below these is a large blue 'SUBMIT' button.

Car Availability consist of:

- Car Type section:
 - Select Car
 - Availability
- Submit Button

Action:

Car-Service Provider should fill out all mandatory fields to submit Car Availability. If one of the fields are not added, submit button would not be active. After pressing submit button it will redirect to this page again to submit another car availability.

Use Case 90- Check Review

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and a list of menu items: Home, New Car, Car Type, Booking, Availability, Check Review (which is selected and highlighted in blue), Transaction History, and Support. The main content area is titled 'Review' and contains a table with one row of data:

Id	Service Id	Service Type	Company	User Id	Rating	Message
1	5	Car	KkompANY	3	***	great service

Check Review consist of:

- Check Review section:
 - Id
 - Service Id
 - Service Type
 - Company Name
 - User Id
 - Rating
 - Message

This table will show all the review information of a particular car id and also show the car review message which comes from the users.

Use Case 91- Transactions Report

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and a list of menu items: Home, New Car, Car Type, Booking, Availability, Check Review, Transaction History (which is selected and highlighted in blue), and Support. The main content area is titled 'Transaction History' and displays a table with one row of data. The table has columns: ID, Date, Receiver Id, Receiver, Username, Description, and Amount. The data in the table is as follows:

ID	Date	Receiver Id	Receiver	Username	Description	Amount
3	2021-07-01 04:29:10	5	Car	user1	Travel for 3 days	2500

At the top right of the main content area are two small circular icons: a download symbol and a refresh symbol.

Transaction Report consist of:

- Transaction Report section:
 - Id
 - Date
 - Receiver Id
 - Receiver
 - Username
 - Description
 - Amount
- Download Button

This table will show all the transaction report history of a particular car and there will a download button to download the report.

Action:

Car-Service Provider clicks on the download button to download the transaction report. After pressing the download button, a pdf format file will download. In the pdf file, there have all the information of transaction history of that particular car.

Use Case 92- Support

The screenshot shows the 'CAR ADMIN PANEL' interface. On the left is a sidebar with a user profile icon and a list of menu items: Home, New Car, Car Type, Booking, Availability, Check Review, Transaction History, and Support. The 'Support' item is selected. The main content area has a dark header bar with the word 'Support'. Below it is a form with four input fields: 'Company Name' (text input), 'Phone Number' (text input), 'Email' (text input), and 'Message' (text area). A blue 'SUBMIT' button is at the bottom of the form.

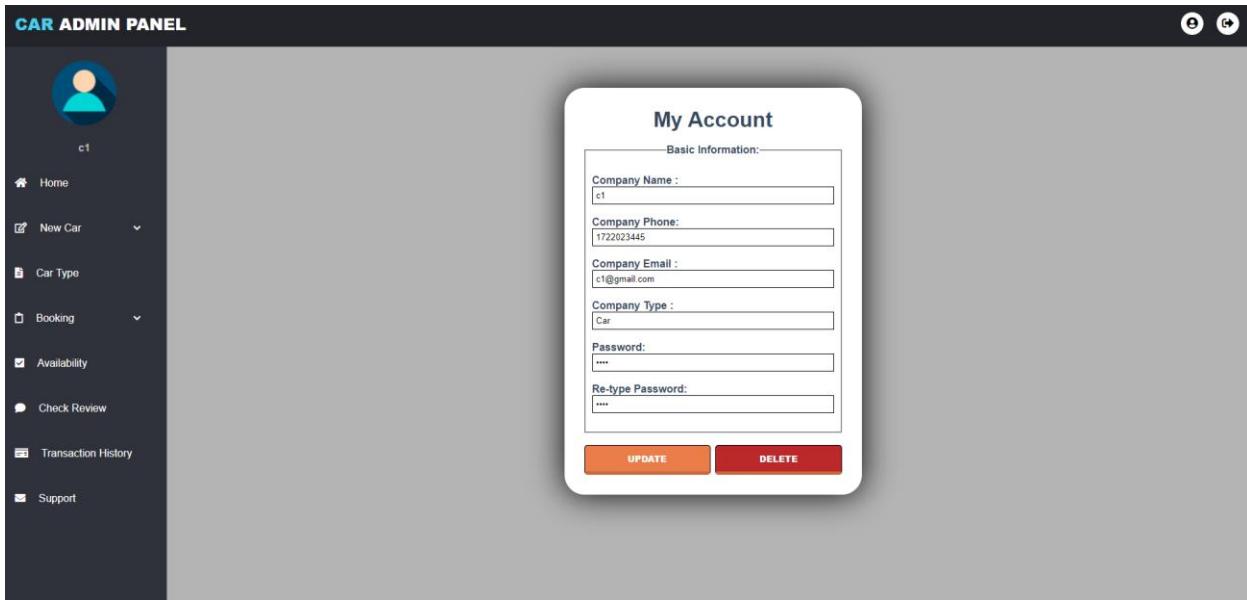

Support consists of:

- Support section:
 - Company Name
 - Phone Number
 - Email
 - Message
- Submit Button

Action:

Car-Service Provider should fill out all mandatory fields to submit a support forum. If one of the fileds are not added, submit button would not be active. After pressing submit button it will redirect to this page again to add another support forum.

Use Case 93- Profile

Profile consists of:

- Profile section:
 - Company Name
 - Company Phone
 - Company Email
 - Company Type
 - Password
 - Re-type Password
- Update Button
- Delete Button

Action:

Car-Service Provider clicks on edit option, they can edit the information of their profile and click delete option will be delete the profile permanently. When updating the information all the information should fill out. If one of the files are not added, update button would not work.

Use Case 94- Registration in the project for User

All user accounts are registered by the user.

A registration form titled "USER REGISTRATION FORM" is displayed on a blue background. The form contains fields for First Name, Last Name, Choose Gender, Email, Phone, Username, Password, and Re-type Password. An orange "Submit" button is located at the bottom right of the form area.

USER REGISTRATION FORM	
First Name :	<input type="text"/>
Last Name :	<input type="text"/>
Choose Gender :	<input type="text"/>
Email :	<input type="text"/>
Phone :	<input type="text"/>
Username :	<input type="text"/>
Password :	<input type="text"/>
Re-type Password :	<input type="text"/>
<input type="button" value="Submit"/>	

A User sees following:

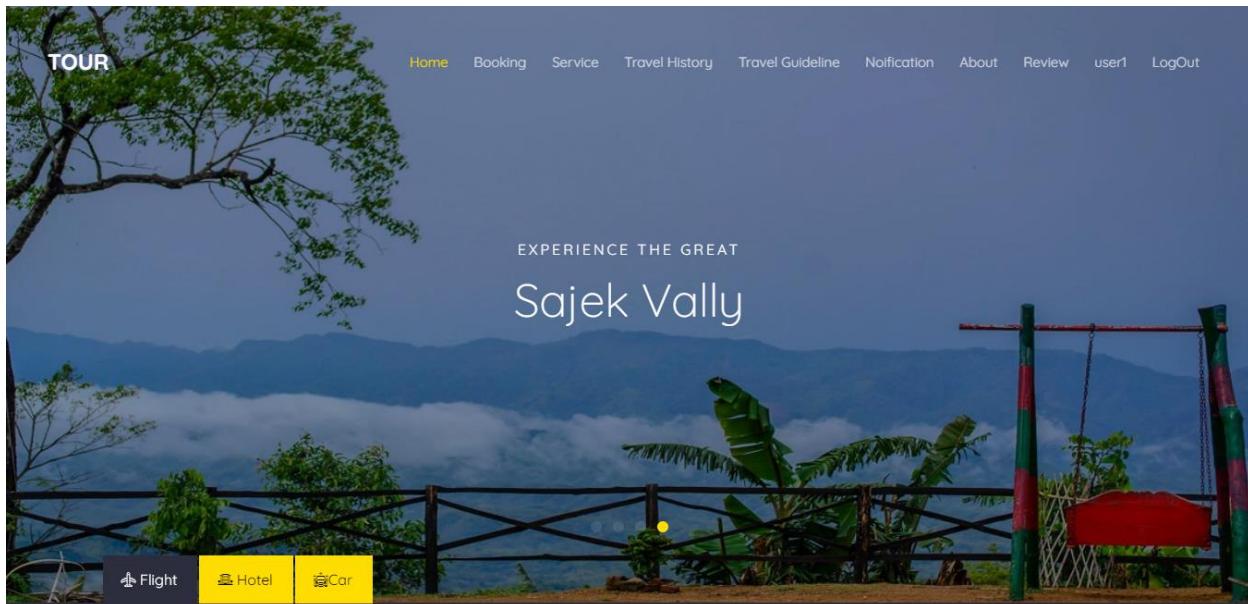

- **A registration form consists:**
 - First Name
 - Last Name
 - Choose Gender
 - Email
 - Phone
 - Username
 - Password
 - Re-type Password

Action: When user clicks on **Submit** button, all the information will be saved.

Possible issues: When User clicks on **Submit** button fields which are not set correctly or Obligatory fields are missing should be highlighted.

UseCase-95- A user's first login to the system (User)

When user login in to the system for the first time a home page will be shown in the system.

Popular Destination

We love to tell our successful far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts.

A grid of eight images showcasing different travel destinations: a beach with waves, a vehicle on a jungle road, a waterfall, a close-up of a tree branch over water, a lake reflecting mountains, a path through dense tropical foliage, two people in a boat on a river, and a scenic view of a valley with a winding road. A yellow arrow icon is located in the bottom right corner of the grid.

Recommended Hotels

 - Most Popular Travel Places

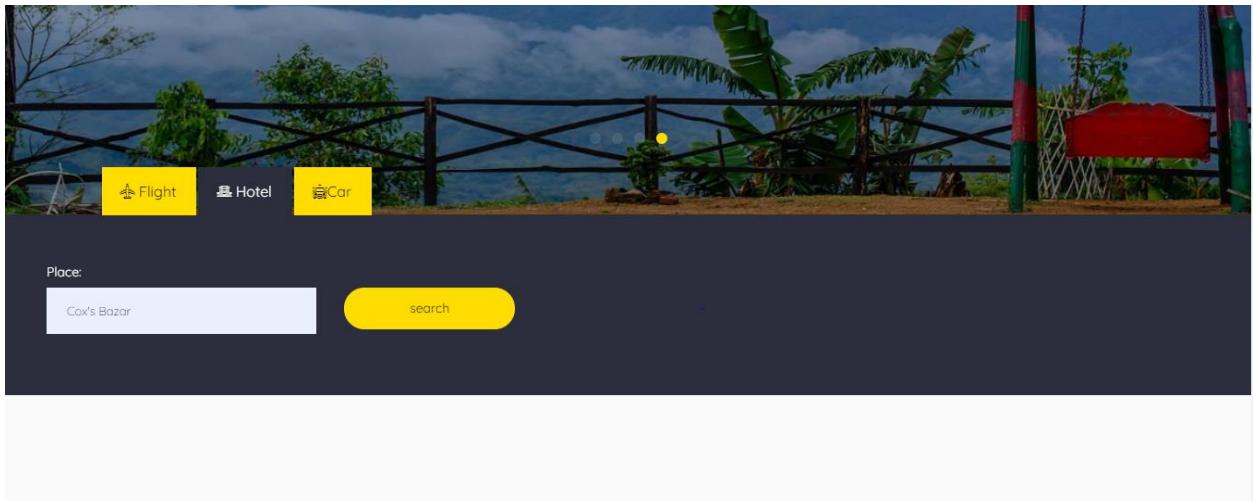

Action: User can browse their respective pages through **Header** and **Blocks**.

- By clicking **TOUR/Home** section user stays at the same section.
- By hovering on **Booking** section user can browse through Flight, Hotels and car section.
- By hovering on **Service** section user can browse through Destination, Packages, Flight, Hotels and Car section.
- By clicking **Travel History** section user can see travel history list.
- By clicking **Travel Guideline** section user can see guideline section for travelling.
- By clicking **Notification** section user Ads and Promos.
- By hovering on **About** section user can browse through About Us, Contact Us, Privacy Policy and FAQ section.
- By clicking **Review** section user can give review on the services.
- By clicking **Profile** section user can see their profile and manage them.
- By clicking **LogOut** section user can logout from the system.
- By clicking **Flight** block user can find flights. For Example:

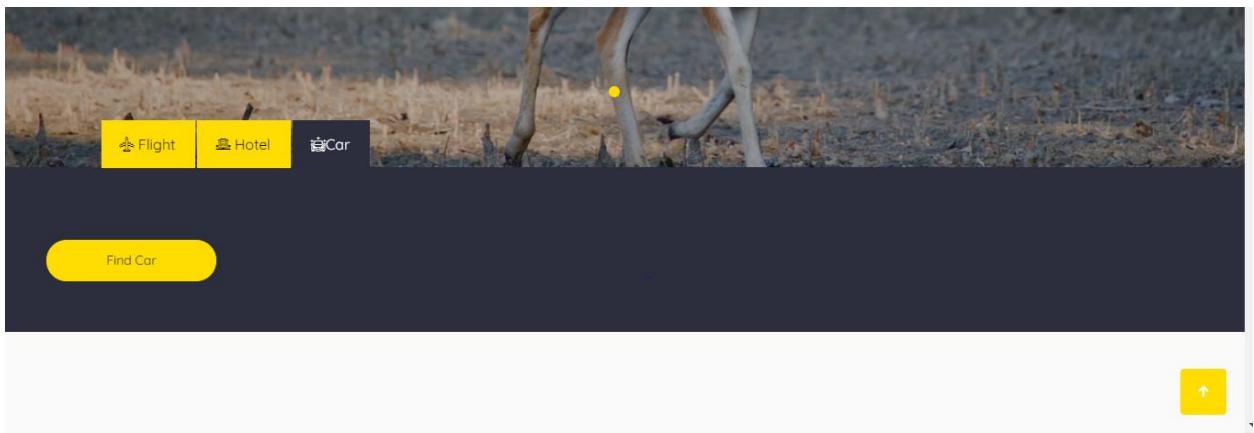

Clicking **Find Flight** button user will be redirected to the flight list page.

- By clicking **Hotel** block user can search hotels. For Example:

Clicking **Search** button user will be redirected to the hotel list page matching the particular place.

- By clicking **Car** block user can find flights. For Example:

Clicking **Find Car** button user will be redirected to the car list page.

- By clicking **Popular Destination** block user can see package list.
- By clicking **Recommended Hotel** block user can see hotel list.
- By clicking **Most Popular Travel Places** block user can see destination list.

UseCase-96- Destination (User)

By clicking **Destination** from **Service** section user will see blocks of destinations in the page.

1

BANDARBAN

Nilgiri

2

COX'S BAZAR

coxs bazar

A User sees following:

- **A block consists:**
 - Hotel Image
 - Hotel id
 - Hotel location
 - Hotel address
 - Phone number
 - Email

Action: User can click on the blocks and see the details for that destination. For Example:

ID	Place	District	Image	Hotel
2	coxs bazar	Cox's Bazar		<button>Search</button>

Where user can search hotels according to the particular destination. For Example:

7 Hotel The Cox Today

Cox's Bazar

Plot-7, Road-02 Hotel Motel Zone, Kolatoly Road Cox's Bazar
Phone: 1521408973
Email: h1@gmail.com

8 Hotel Sea Crown

Cox's Bazar

Marine Drive, Kola Toli New Beach, Cox's Bazar
Phone: 1521408973
Email: h2@gmail.com

UseCase-97- Packages (User)

By clicking **Packages** from **Service** section user will see list of packages in the page.

ID	Place	Location	Image	Description	Duration	Transport	Hotel	Cost	Book
3	Jaflong, Sylhet	Sylhet		Amazing tourist spot	2 night 3 days	yes	yes	7400	

A User sees following:

- **A table consists column:**
 - ID
 - Place
 - Location
 - Image
 - Description
 - Duration
 - Transport
 - Hotel
 - Cost
 - Book

The table will show all the package details. There will be a booking option in each row for booking the particular package.

Action: When user clicks on Book option in any particular row, a confirmation page will appear with the details and a book button. If book button is pressed, that particular package will be booked. For Example:

Package Id	3
Place	Jaflong, Sylhet
Location	Sylhet
Description	Amazing tourist spot
Duration	2 night 3 days
Transport	yes
Hotel	yes
Cost	7400

Are you sure to you want to book?

UseCase-101- Flight Bookings (User)

By clicking **Flight** from **Booking** section user will see list of flights that was booked in the page.

SL No.	Flight Information
1	User ID: 1 Air ID: 4 From: Chittagong To : Dhaka Check In Date: 2021-06-25 Check In Date : 2021-06-26

A User sees following:

- A table consists column:
 - SL No.
 - Flight Information

The table will show all the flight details.

Usecase-102- Hotels Bookings (User)

By clicking **Hotels** from **Booking** section user will see list of hotels that was booked in the page.

SL No.	Information
1	User ID: 1 Room ID: 2 Check In Date: 2021-06-25 Check Out Date : 2021-06-29

A User sees following:

- A table consists column:
 - SL No.
 - Information

The table will show all the hotel details.

Usecase-103- Car Bookings (User)

By clicking **Car** from **Booking** section user will see list of cars that was booked in the page.

SL No.	Information
1	User ID: 1 Car ID: 5 From: Dhaka To : Chittagong Check In Date: 2021-06-29 Check In Date : 2021-06-29

A User sees following:

- A table consists column:
 - SL No.
 - Information

The table will show all the car details.

Usecase-104- Travel History (User)

By clicking on **Travel History** section user will see list of packages that was booked in the page.

ID	User ID	Package ID	Places	Image
4	1	3	Sylhet	

A User sees following:

- A table consists column:
 - ID
 - User ID
 - Package ID
 - Places
 - Image

The table will show the details.

UseCase-105- Travel Guideline (User)

By clicking on **Travel Guideline** section user will see the guidelines in the page.

Safety and security
Political violence

Bangladesh has a long history of political violence. If you're currently in Bangladesh, or intend to travel there, even if you're a regular visitor with family or business links you should monitor the media and regularly consult travel advice. English language news broadcasts can be seen on BTV at 10am, 5pm and 10pm. There are also several online English language newspapers and agencies.

In Bangladesh protests and demonstrations can quickly turn violent and lead to clashes with law enforcement agencies. In cases of political unrest, incidents of arson, violence and vandalism can suddenly break out across the country, mainly in towns and cities.

If you see a demonstration developing, or are in a situation in which you feel unsafe, move away to a place of safety. Stay away from large gatherings, and avoid political offices and rallies. If you're travelling during a hartal (strike) avoid demonstrations and protests as they may quickly turn violent. There could be attacks on property and public transport.

Crime

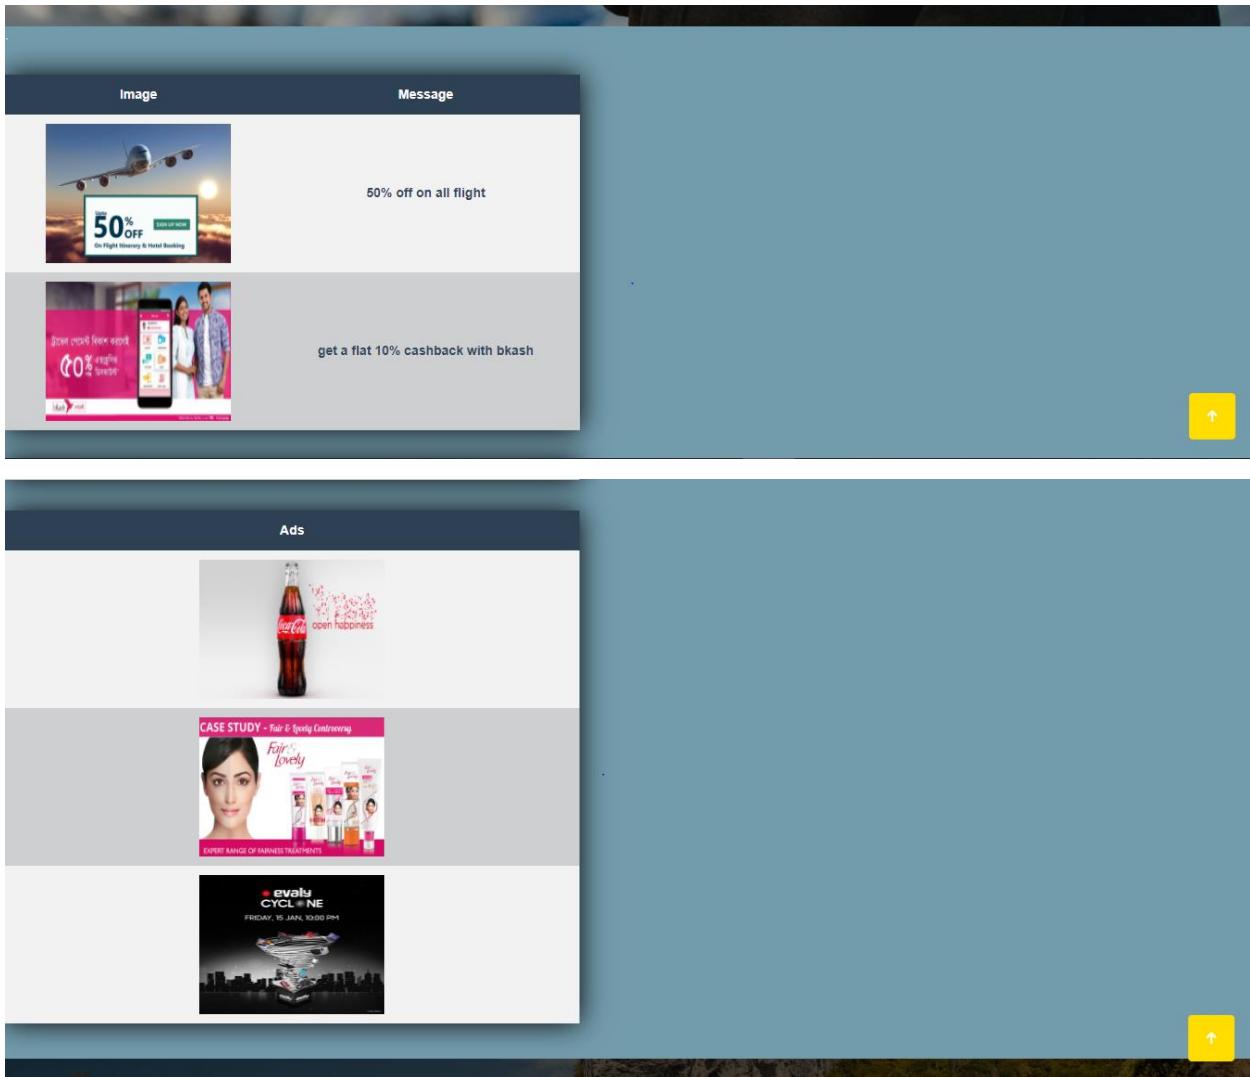

Dhaka police have highlighted the increasing number of criminal gangs operating in the city and reminded people to be aware of potential threats including robbery and violent crime.

Armed robbery, pick pocketing, and purse snatching can occur. Don't carry large amounts of money with you or wear jewellery in the street. Thieves often work in pairs on motorcycles or motorised rickshaws known as 'CNGs'. Passengers using rickshaws, or travelling alone in taxis are particularly vulnerable, especially at night. Avoid using public transport if you're on your own. Cycle rickshaws aren't safe; they offer little protection for passengers in the event of a crash.

The user sees guidelines for travelling.

UseCase-106- Notification (User)

By clicking on **Notification** section user will see two tables, one showing Promos and another one Ads in the page.

A User sees following:

- **Two tables:**
 - Promo Table
 - Image
 - Message
 - Ads Table
 - Ads

The tables will show promos and ads.

Usecase-107- About Us (User)

By clicking **About Us** from **About** section user will see about the website in the page.

The screenshot shows the 'About' section of the Katabkhana website. On the left, there's a blue sidebar with the word 'ABOUT' at the top and links for 'History', 'Staff', 'Connect with us', 'FAQs', and 'Career'. The main content area has a dark header with a colorful illustration. Below it, the 'History' section is visible, followed by the 'About Us' section. The 'About Us' section contains two paragraphs of text. At the bottom of this section is a heading 'Why Buy from Katabkhana?' and a yellow button with an upward arrow icon.

The page will show the details.

Usecase-108- Contract Us (User)

By clicking **Contact Us** from **About** section user can see the support option in the page.

The screenshot shows a 'Get In Touch' contact form. It includes fields for 'Name' (with placeholder 'Your name'), 'Phone Number' (with placeholder 'Your number'), 'Email' (with placeholder 'Your email address'), and a large 'Message' area with placeholder text 'Say something about us'. At the bottom of the form is a 'Send Message' button and a yellow button with an upward arrow icon.

A User sees following:

- A form consists:
 - Name
 - Phone Number
 - Email
 - Message

The form will show all the details and a **Send Message** button.

Action: When user clicks on **Send Message** button, all the information will be sent to **Admin** and **Employee**.

Possible issues: When User clicks on **Send Message** button fields which are not set correctly or Obligatory fields are missing should be highlighted.

UseCase-109- FAQ (User)

By clicking **FAQ** from **About** section user will see frequently asked questions in the page.

FAQ

Why do you need travel insurance?

A travel medical insurance plan provides emergency health and medical coverage in the event of an accident, injury or sickness beyond your control. Travel insurance can offset the high medical costs associated with being ill while travelling outside of your province. Likewise, trip cancellation and interruption insurance can offset financial loss resulting from your pre-paid, non-refundable trip costs if you have to cancel your travel plans for an insured reason.

Do you provide additional support?

Chat and email support is available 24/7. Phone lines are open during normal business hours.

The page will show all the questions and answers.

Usecase-110- Review (User)

By clicking **Review** section user can see the review option in the page.

The form consists of the following fields:

- Service ID: [Text Input]
- Servicer Type: [Dropdown Menu] (Hotel)
- Company Name: [Text Input]
- User ID: [Text Input] (1)
- Rating: [Dropdown Menu] (*****)
- Message: [Text Area]
Say something about us

Give Review

A User sees following:

- **A form consists:**
 - Service ID
 - Service Type
 - Company Name
 - User ID
 - Rating
 - Message

The form will show all the details and a **Give Review** button.

Action: When user clicks on **Give Review** button, all the information will be sent to **Employee**.

Possible issues: When User clicks on **Give Review** button fields which are not set correctly or Obligatory fields are missing should be highlighted.

UseCase-111- Profile (User)

By clicking **Profile** section user can see their profile in the page.

The screenshot shows a user profile edit interface. On the left is a scenic image of a large rock formation in the sea with a boat nearby. To the right is a form titled "PROFILE" with the following fields:

- First Name : Nobobi
- Last Name : Shatin
- Gender : male
- Email : ui@gmail.com
- Phone : 1521408973
- Username : user1
- Password : 1111
- Confirm Password : 1111

At the bottom are two buttons: "Update" and "Delete".

A User sees following:

- **A form consists:**
 - First Name
 - Last Name
 - Gender
 - Email
 - Phone
 - Username
 - Password
 - Confirm Password

Action: User will fill all the fields for updating profile. After changing information when a user clicks the **Update** button, all the information will be updated and it will redirect the user to the same page.

When a user clicks the **Delete** button the account status will be changed to "Deactivated" and User will be redirect to the login page.

Possible issues:

When User clicks on **Update** button fields which are not set correctly or Obligatory fields are missing should be highlighted.
